Scientific programme

Dear friends,

The Department of Pathology, Regional Cancer Centre, Thiruvananthapuram, Kerala is conducting a one day CME on Pathology of Head and Neck Cancers on January 11, 2020. Head and neck cancer pathology is a diverse specialty. Newer immunohistochemical and molecular studies have helped in better understanding the various entities, which also play an important role in diagnosis and management. This one day programme will cover basics and will also provide an update on recent developments and newer entities in head and neck pathology. This CME features eminent international and national faculty in head and neck pathology and will benefit both postgraduates and consultants.

Interesting cases slide seminar

This is a prize session, postgraduates and consultants can participate, registration is mandatory for participation. There will not be a separate session for postgraduates and consultants. You are required to send blinded powerpoint file of interesting/diagnostically challenging cases in head and neck cancer pathology to cmeh.nrcc2020@gmail.com by 15th December, 2019. You are also required to send a separate first page file containing details of presenter, institution. Our scientific committee will select best five cases which will be displayed at our website www.rcctvm.gov.in and these five will have to present their cases in slide seminar during CME. The winner, who will be decided by an expert panel of judges will be awarded certificate and prize. A centre can send multiple number of cases but one person can present only one case. You will have 7 minutes to present your case and 2 minutes for discussion.
